

Shady Adel

AI Product Engineer | AI-Assisted Software Engineer

✉ shadybusiness219@gmail.com ☎ (+20) 114 172 9045 📍 Egypt 🌐 [linkedin.com/in/shadyadel9](https://www.linkedin.com/in/shadyadel9)

Summary

Software Engineer with 2.5+ years of experience building production software and AI-powered features. Experienced in designing scalable architectures, optimizing application performance, integrating AI workflows, and delivering customer-facing products. Passionate about building AI-native products, modern developer tools, and end-to-end software systems using AI-assisted development.

Professional Experience

iOS Developer, *Innovitics* [🔗](#)

12/2024 – Present
Cairo, Egypt

- Developed and managed 3+ production iOS applications, ensuring successful deployment and ongoing maintenance. **Mahmoud ElFar** [🔗](#), **TAQA EV** [🔗](#)
- Refactored legacy codebase into a **modular** architecture and reduced codebase size by **~10%**
- Reduced app launch time by **~800 ms**
- lowered network/server usage upto **~80%**
- Integrated a **multi-model AI** pipeline (Claude, Opus, Codex), reducing costs by up to **~80%** through efficiency.

Skills

Programming Languages

- Swift
- Objective-C
- JavaScript
- TypeScript

Software Engineering

- MVVM-C
- VIPER
- SOLID
- Performance Optimization
- Unit Testing
- UI Testing
- Open Source
- Third-Party Libraries

Tools & Practices

- Git
- CI/CD
- Jira
- Agile
- Scrum

Mobile Development

- SwiftUI
- UIKit
- Combine
- Concurrency
- Flutter

Backend & Platform

- Node.js
- PostgreSQL
- Docker
- System Design

AI & Developer Productivity

- Claude
- Cursor
- Codex
- Gemini
- AI-Assisted Development
- Prompt Engineering
- LLM Integration

AI Systems

- MCP
- Agentic Workflows

Education

BSC. in computer science, *Kafr El-Shiekh University*
With A+ score for E-commerce graduation Project

09/2015 – 06/2019
Kafr Al shiekh

Military

First lieutenant, *Egyptian Armed Forces* - 3 years

11/2019 – 04/2022
Sidi Barani, Egypt

- Led a unit of ~40 personnel, **ensured performance** under high-pressure conditions
- Planned and executed missions with **strict timelines**, improved execution efficiency and **minimizing** risk
- Enforced **standards** which resulted in consistent team reliability and performance
- Coordinated cross-functional **activities** (logistics, operations)
- Mentored and trained team members resulted in **improved overall** capability.

Community

Mashrou' siin – Tech Community , *Community Manager*

11/2024 – Present
Egypt

- Collaborated with the community founders in expanding local chapters across **5+ cities**, growing the community to **500+ unique active members**.
- Contributed to **50+** workshops, meetups, and **mentoring** sessions, supporting **kids, students**, and **professionals** across all experience levels.
- Worked directly with social media to outreach helping community initiatives reach **250k+ online views**.
- Maintained a safe and respectful community environment where members felt **comfortable**, shared **experiences**, and **growing together**.
